

STORM DOORS

home

[we make front doors better]

[www.LARSONdoors.com](http://www.LARSONdoors.com)

Our doors are built in the USA to protect what matters, creating that great space where your family feels safe, comfortable and protected.

## Storm Doors for Every Home

LARSON® storm doors are available in styles and ventilating options to make your home more comfortable. Choose from Screen Away® retractable screens that disappear when not in use or convenient built-in screen options.

## Consider Low-E

Several storm doors are available with Low-E glass. Low-E (low emissivity) glass contains an extremely durable coating that minimizes the amount of infrared energy that passes through without compromising the amount of visible light that shines in. Low-E glass reduces interior fading and has a dramatic impact on the comfort of your home.

### The Low-E Advantage

Keep rooms warmer in the winter by minimizing heat loss.

Keep rooms cooler in the summer by reflecting the sun's heat.

U.S. Department of Energy recommends Low-E to improve energy efficiency.

## Protection

Storm doors protect your entry door and provide an additional layer of security between your home and unwelcome guests.

## Installation

LARSON storm doors are available with two installation methods that require no cutting. EasyHang® includes one-step hanging with pre-drilled placement holes and adjustable height for an exact fit. The Platinum Collection is pre-assembled for effortless installation. Out of box and on your home in minutes.

## Learn more

Visit us at [LARSONdoors.com](http://LARSONdoors.com) for a comprehensive list of products available to make your home more comfortable.

## The fast install.

No experience necessary with our pre-assembled doors. Simply add your QuickFit™ handle, place frame on the opening, and secure in minutes\*. Relax, you got this!

## Beautiful protection for your home.

The modern design of the Platinum series is both innovative and attractive. It is a one-of-a-kind blend of technology and luxury with a built-in hidden closer and multi-point locking. From open to close, Platinum is the ultimate storm door with added security features and better operation. Backed by a Limited Lifetime warranty.

## MOUNTING GUIDE

### PLATINUM COLLECTION (Surface Mount)

The rails mount directly to the face of the exterior brickmold and require a 3/4" wide mounting surface. Determine hinge side as viewed from outside.

### STORM DOORS (Recess Mount)

The rails mount inside the opening and require a 1" wide by 1" deep mounting surface.
